10	ODIA (HONS)	DSE-IV
11	POLITICAL SCIENCE (HONS)	DSE-IV
12	COMMERCE (HONS)	DSE-IV
13	SOCIOLOGY (HONS)	DSE-IV
14	EDUCATION (HONS)	DSE-IV

The project is intended to establish the connection between Syllabus as confined to the text books and class rooms. It is expected to give an empirical content to the subject. It studies individual as well as group behavior. It is a compulsory paper.

The process of project preparation typically comprises of an investigation of a particular topic, based on the application of scientific, philosophical and theoretical knowledge available in the already existing scientific literature and other published sources of information. The student may use already available data (texts, documents, artworks or existing data sets) or student may go for collection of data from the field. The final report should ideally have the following sections.

- (1) Abstract (in about 500 words) containing a summary of the entire report.
- (2) Introduction of the topic, arguments for choosing such a topic and the key investigation propositions.
- (3) A review of the existing knowledge on the topic
- (4) Information on the data and data treatment tools used in the study
- (5) An analysis of data and findings
- (6) Conclusions
- (7) References/ Bibliography
